

Hartford Public Library: Goodwin Branch

Hartford, Connecticut

Scope:

Area: 5,000 sf

Completion: Fall 2004

Cost: \$1.9 million

The Goodwin Branch of the Hartford Public Library was originally built in 1941. Mechanical and electrical systems have been completely updated to support current and future needs and maximize efficiency. New lighting and signage, as well as ADA upgrades increase the facility's appeal and accessibility.

Site improvements included the development of new off-street parking.
